hello senator, catherine did give me one check for hannah which will pay for the house-raising. we will owe him for the small footing and block he installed but we are not going to pay him his "off the top of his head" figure of \$1200. that is twice what hthe work should have cost. we put he center wall up yesterday and should be ready to install the plywood next week. we won't be finished when you get here but you will be able to see exactly what the finished product will be. i can't emphasize enough how much and how well rocky does, bill has a true gem there the guy works 7 days a week on bill's projects. tell catherine we have a plan to expand the bathroom. my best, bob
